- 6 MINI PROJECTS
- 7 LOCATIONS ACROSS LAGOS
- 4 PARTNERSHIPS
- OVER 16,000 BENEFICIARIES
- 300+ VOLUNTEERS
- 1500 HOURS OF VOLUNTEER SERVICE
“Lagos Food Bank Initiative is a charitable, non-profit private-driven organization that provides foodstuffs and relief services for indigent and vulnerable people within Lagos.”

Our vision

We are committed to creating a Lagos without hunger and closing the obvious food gap.

Our Mission:

Our mission include providing monthly food stuffs to indigent people in Lagos, reducing hunger motivated crime in Lagos by feeding the destitute in need of food through a network of food banks by having at least one food bank in every Local Government Area in Lagos, to enlighten religious organization, corporate entities and communities on how to start a food bank and embarking on a crusade /advocacy to close the food gap in Lagos.

Our Target Audience/Beneficiaries

Our primary goal at LFBI is reach out to:

A. Seniors from 50 years and above
B. Children from 5-16
C. Destitute
D. Extremely indigent families
E. Widows
It is my pleasure to present my message for Lagos Food Bank’s first Annual report for 2016 fiscal year. It is even a greater pleasure to be part of a cause that brings hope to the indigent and relief to the hopeless especially at this time when our beloved Country faces a very harsh economic downturn.

The past year was filled with challenges but successful ultimately because we kicked off with LFBI officially at a time when it was not economically convenient to sustain a monthly large scale charity project. It took trust, goodwill and credibility earned from our commitment to our mission to pull through the year 2016. With His grace, we carried out 11 projects across 7 locations in Lagos and reaching over 16,000 families within one year.

The level of success we have achieved thus far can be attributed to the collective efforts of the our Board of Trustees, Volunteers and the various individuals and donors whose service of sacrifice and generosity remain priceless and serve as an inspiration to those who benefit from the activities of the our Food Bank activities.

We are resolute in our commitment towards attaining global status and adopting international best practices in achieving our goals to close the food gap in Lagos. We however believe in the goodwill and support from corporate organizations, religious organizations and the civil society to realize our dream. I will end this message by saying: “Solving local hunger may be complicated, feeding a child and their family is not.”
FEBRUARY 14TH 2016 FOOD DISTRIBUTION PROJECT AT THE LAGOS FOOD BANK

“Got an idea to start”, "Thinking to start" and "Making a commitment to start" is one aspect of life. Actually "Starting" what you truly want to do in life, is a completely different ball game.”

— Manoj Arora, From the Rat Race to Financial Freedom

LFBI started as a dream project on paper whilst waiting for the most convenient time to start the project. We were waiting to get funding partnership to commence food distribution but got none. Yes! we had our fears especially because of the concerns about “sustainability” we did not have the guts to publicly announce the commencement of the food bank project for almost one year. What we did instead was to do more of a clandestine benevolence to the indigent people around us without record all throughout 2015. In February 2016, we mustered the courage to kick off officially with the Month of Love where we reached out to about 35 widows. We officially launched the project and invited the Punch newspaper to cover the event. We registered all the beneficiaries and also did likewise for all the volunteers who showed up for the first project. This gave us more courage to set the calendar for the full year 2016. What we thought was too difficult to sustain eventually touched over 16,000 families throughout the year 2016!

“I woke up this morning not knowing how to feed my family being a widow. I prayed to God. Then I got a call from the food people to come and collect food to cook”...Mrs Dominic
MARCH 26TH FOOD DISTRIBUTION PROJECT AT THE FOOD BANK

The overall objective of Lagos Food Bank is to provide for the needs of widows, children and the under-aged. In the third month of the year, the team conducted a survey by visiting homes of families with aim of evaluating the challenges of families within our community. The outcome of the survey within showed the rate of deficiency of proper balanced meal. We understood the message and forged ahead for the month of March in conducting our services to various families that we had visited. Over 400 Beneficiaries were present for food collection.

Intentions are followed up with actions; this is how results are achieved. Every single beneficiary at the Lagos Food Bank matters to us. The Food Bank successfully made provisions for over 600 families, each of them benefited collecting raw foods comprising of Garri, Rice, Ground oil and tomato purees. We did a raffle draw for widows who won brand new clothes.
Our April food distribution project was fully loaded with various services rendered to the indigent. Malnutrition is one of the greatest epidemics in Africa which is caused by hunger. To combat this, proper nutrition and good health prevents disease. Access to medical services is limited for someone that can barely cater to eat and pay for medical checkup or drugs. Free medical services were conducted for the elderly. The test carried out was checking of high blood pressure, eye test. The Redeem Christian Church of God City of David parish partnered with us for the April project by feeding over 200 families.

The true value in curbing the menace of hunger is through collective support and catering for the needy. How it can be achieved is taking the time to observe those around you.
MAY 30TH FOOD DISTRIBUTION PROJECT AT THE FOOD BANK

AS AT MAY 2016 OUR CLIENT BENEFICIARIES HAD RAISED IN NUMBER TO OVER 700 ADULTS AND CHILDREN.

Everywhere you look around there is food that can sustain every person but in reality, how many of them have access to these food?

We organized a party and distribution to the fun loving children and their mothers at our building. The turn out of the crowd at the event was massively a welcome development for the us. The team of volunteers divided themselves into task of dividing families into various groups to share the various food items we had made provisions for at the food bank. Beneficiaries were amazed with their food items and brand new clothes they received.
JUNE 24TH FOOD DISTRIBUTION PROJECT AT THE FOODBANK

AT LFBI we ensure to create a standard of putting ourselves in the situations of families. The power of empathy has always reminded us of why there is a need for a platform or organization to ensure there is a provision for sustainability to an individual living below the country’s per capital income. The month of June had its share of community service at our facility.

At our organization we see our beneficiaries as customers. We focus our minds on satisfaction of beneficiaries as a top priority. In order to have a successful project, we ensure our community services is kept up to the best practices in customer care.
We carried out our first outreach at the Agege destitute ground. The volunteers were going into a new phase of service in the real stewardship of community development by leaving the four walls of the Food Bank. Our volunteers were on ground to co-ordinate the distribution of food and various provisions. The team took the time to pay homage to the head of the Hausa and Fulani community.

In all we successfully fed over 800 destitute, adults and children.

Our test of faith and bravery came into action upon embarking into Agege destitute ground. It rained for 8 hours restricting our movement from the food bank to the outreach venue; we contemplated if our efforts were going to be futile. The shining rainbow signified the rain had stopped as at 4pm, we set forth for Agege hoping to get the projected crowd. At the end of it, our positive mind set was met with an overwhelming crowd under the mudding and wet terrain. We passed the test of faith!
AUGUST 27TH 2016 FOOD DISTRIBUTION PROJECT AT MAKOKO

Makoko is one of the ten most underdeveloped slums in Lagos. It is situated within Lagos Mainland with a population of about 30,000 inhabitants living in poverty. The living condition is below the healthy condition for children and young persons hence our interest to reach out to this community.

Passion has created landmark moves and innovations in the world at large. It has taken the few out of their comfort zones and not settling with the regular norms of the society. The food bank had its first celebrity volunteer taking the lead against hunger, Nigerian artiste LOLA RE was on duty for community service at the Makoko slums.

The area had a substantial magnitude of crowd consisting women, children and the elderly. The food bank successful put smiles on the faces of occupants.
SEPTEMBER 29\textsuperscript{TH} PROJECT AT OTO OTUMARA COMMUNITY

In the urban and rural areas of Lagos, two out of three residents are living in slums around the metropolis. These settlements exist to accommodate families that cannot afford the cost of accommodation that is above their source of income. One of them is Otumara community not too far away from the beautiful view of the National Theatre. The area is situated on top of refuse, each house basically built with woods or stainless steels.

After conducting demographics of the community, the organization mapped out the list of items that are peculiar to the needs of the inhabitants of the slum community. 1,600 beneficiaries had access to food, women and children received mosquito nets, slippers and sand sandals were given to children with other educational materials.
OCTOBER 29TH FOOD DISTRIBUTION
AT THE DESTITUTE HOME EBUTE – META LAGOS

The society has a moral responsibility of combating poverty which has been become a menace. No amount of advancement in breakthrough of science, technology, industry, wealth without being put into good use of distributing to the less privilege can stop the high level of crime in a society. The food bank moved its services to the Lagos East Senatorial district of Ebute meta. This particular district is one the largest destitute homes for beggars and scavengers you see around the streets of Lagos.

The momentum stepped in with the control of the crowd. We had experienced volunteers that managed the crowd in being cooperative with us.

This amazing Hausa community has a culture of contentment and appreciation; you see in their eyes what an average being feeds on a regular day is like a bounty treasure. The children took in queue under the scorching sun to make sure they benefitted being a recipient of the Lagos Food Bank. We organised dancing competition for the children.
Towards the end of September 2016, we started partnerships with restaurants and fast food outlets that provided us with perishable foods on a daily basis. In order to ensure that the foods are distributed without delay, we decided to introduce a mobile pantry that enables us to pick up the food items and distribute on the same day. The mobile pantry has helped us with our mini projects which fed over 2000 destitute and street beggars between September and December 2016.

LFBI MOBILE FOOD PANTRY PROGRAM HAS HELPED FEED OVER 2000 DESTITUTE AND STREET BEGGARS WITHIN 3MONTHS OF ITS BIRTH.
NOVEMBER 19\textsuperscript{TH} PROJECT IN PARTNERSHIP WITH #THESALTWEDDING AT OLOKODANA SLUM

Our Project for November 2016 took a different dimension with partnership of an amazing couple #theSALT with their friends and family actively involved in the act of service and volunteering. With the financial support of this generous couple, we were able to distribute school bags, notebooks, sandals and several writing materials.
DECEMBER 24TH PROJECT AT IJORA BADIA SLUM

December was the final project for the year 2016. In order to make it grand, the LFBI conducted its outreach at one of the largest slums in Lagos. Orisunbare / Gangarin slum located at the suburbs of Ijora. The undeterred team carried out its distribution on top of a refuse ground protected with nose guards and gloves. 150 volunteers were on standby to manage the crowd and ease the distribution process.

At the Lagos Food bank we go into where the action takes place in telling the story. Our volunteers armed with nose masks and gloves distributed on top of dump site with the attendant hazards. Our amazing team successfully distributed over 3,000 items to the community.
The above income CHART is exclusive of:
1) Contributions made by the founding board members towards setting up the food bank
2) Donation of N1,000,000 from Napims towards LFBI 2017 activities
