2017 in Perspective

- Over 55,000 beneficiaries
- 11 Large scale projects
- 10 Mini projects
- 15 Locations across Lagos
- 7 Partnerships
- Over 1800 volunteers
- 192,000 hours of volunteer service
- Distribution of educational materials
- Health and nutritional services
- Clothing and household item distribution
- Compilation of skills in the slums
As I reflect on 2017, I am proud of the accomplishments achieved through the dedication, hard work and the overwhelming support and partnership of every single enthusiast of Lagos food Bank, it is truly humbling to witness the community effort through donations, volunteer support and advocacy efforts of our followers on social media to fight hunger and make a difference in the lives of those who experience hunger in different slums and streets of Lagos. Our dedicated team has also done a great job at expanding our outreach capacity conducting several large scale projects to feed over 55,000 thousands families across 15 Lagos locations in 2017.

Owing to the staggering statistics of the people suffering from abject poverty in Lagos, our strategic plan is to increase our beneficiaries by 50 percent in 2018 thereby reaching a total of 82,500 people in terms of food and relief items by 31st December 2018. I don’t want to sound overly optimistic, because this will be a monumental task that requires all of us to come together and make ending hidden hunger a priority. Nevertheless, we believe our goals are attainable.

This past fiscal year marked key innovations such as the commencement of the Lagos Food bank Human Resource Empowerment program channeled towards registering artisans living the slums on our data base and marrying their skills with corporate organizations and small scale business in need of same. Since we started this exercise, we have registered over 700 artisans on our data base and have successfully secured jobs for over 15% of them.

It is my delight to mention that Lagos Food Bank is not just an organization; it is a movement. A movement made up of thousands of people who share a dogged determination to fight hunger and feed hope regardless of ethnicity, race or religion. A movement of people willing to go extra mile to help those in need. A movement that has only been possible because of people like YOU!

On behalf of the thousands of people we have impacted through your generosity—children, the elderly, homeless, destitute and the less privileged, thank you for your loyal and generous support. With your help we are on the move toward a hunger-free Lagos.
Committed to creating a Lagos without hunger and closing the obvious food gap.

Our mission include providing monthly food stuffs to indigent people in Lagos, reducing hunger motivated crime in Lagos, feeding the destitute in need of food through a network of food banks by having at least one food bank in every Local Government Area in Lagos, and to enlighten faith based organization, corporate entities and communities on how to start a food bank whilst embarking on crusade/advocacy to close the food gap in Lagos.

Commitment: We are committed to solving hunger induced problems and providing related services.
Compassion: We are motivated by compassion to reach out to the poor.
Community: We collaborate with others who share our goals of a poverty free nation.
OUR TARGET BENEFICIARIES

1. Seniors from ages 50 years and above.
2. Children from ages 0-16
3. Destitute
4. Extremely indigent families
5. Widows

OUR PRIMARY GOAL AT LFBI IS TO REACH OUT TO:
**Sustenance of over 55,000 vulnerable households by providing food, relief items, free health services and relief items on a weekly and monthly basis and in the process bring hope to the most vulnerable.**

**Food security i.e. our vulnerable beneficiaries are more food secured knowing they can access food from the food bank.**

**Provision of nutritional food to HIV patients to sustain their drugs**

**Providing nutritional food to enrich malnourished children in slum areas**

**Providing relief items like mosquito net for vulnerable beneficiaries thereby preventing and reducing the level of malaria**

**Lagos Food Bank Human Resources Initiative has helped vulnerable beneficiaries towards self sustenance by helping them secure a job with their skills.**

**Also through our social media presence, the initiative has helped to put hidden poverty in plain sight by opening the eyes of the people to the need, vulnerability and poverty of others in our midst thereby creating more awareness on the deplorable state of living in the slums and in return motivates a lot of individuals and organizations to provide help.**

**Through our medical volunteers, we constituted a vibrant medical unit to reach over 20,000 beneficiaries in different part of lagos, especially the slums we visited.**
We Know

An estimated 8,450,000 people in Lagos are at risk of being hungry and not getting help.

We Believe

- Hunger is solvable
- Hunger has no place in Lagos, the epicenter of commerce, innovation, and prosperity.

We’re Determined

- To lead the movement to end hunger in Lagos and its environs.
- To feed 50 percent more people in 2018.
LAGOS state is a vibrant community and the economic hub of the nation. But it's also a place where hunger and malnutrition are pervasive. Lagos, a city of over 22 million people, is ranked the Africa’s 7th largest economy and the largest city in the African continent. Currently ranked the 13th most expensive city in the world, and the most expensive in Africa. However, over 50% percent of its population is trapped at the survival level living from hand to mouth. Many roads, particularly at major traffic junctions, are beggars of all sorts, mothers with their young babies strapped to their backs begging for arms in the hot scorching sun, quadriplegics strapped to wheelchairs angling for positions with the cars, school age kids hawking on the street, some with intravenous drip tubes dangling and sticking out from various parts of their bodies, others with heart-wrenching cancerous growths, wounds and open sores standing in the way of the traffic begging for money. All these do
not include those suffering from hidden hunger; those who can not openly beg for arms yet terribly famished without hope for food relief any where. Today Lagos food bank provides food aid to thousands of families across different parts of Lagos. In 2017, we reached over 55,000 adult and children in deperate need of food relief.

The Lagos hunger paradox is having a profound impact on the lives of the downtrodden and creating new challenges for Lagos food bank. Many poor families can no longer live within the city with their little income thereby settling in slums where houses are relatively cheaper. The scarcity of food banks in Lagos makes the situation even worse as we often move from one distant location to the other to get help to the hidden slums.

Reports from our medical team reveal that the lack of access to nutrient-rich foods is hurting a growing number of adults and children in most communities we visit. The people we serve have higher rates of diabetes, hypertension and other diet-related ailments. The reality is that we must do more to fight the scorge of hunger by collective engagement of all stake holders.
Food Insecurity In Lagos And Other Parts Of The Country Is Hitting A Crisis Point

• 4 in 6 lagosians report having experienced food insecurity at least 7 times in the last 12 months.
• Over half of these people say they have experienced food insecurity between 1-3 times but for over a quarter of them it is a regular occurrence.
• Over 5000 people now receive food relief at LFBI each month, 55% of whom are orphans and vulnerable children.

Don’t Be Surprised

• The face of hunger is diverse – male, female, both young and old, single and in families, students, the sick, the vibrant, employed and unemployed as well as retired people. Hidden hunger is more prevalent in Lagos and several parts of the country; many cannot associate with the stigma of openly begging for food yet wallow in intense hunger. But the mandate of LFBI is to meet instant needs of people who cannot access food to cure their hunger.

The Numbers Are Overwhelming And Needs An Urgent Attention

• 95% of the people experiencing food insecurity have sought food assistance at some point or the other but could not come up with any food relief organization within range hence resorted to petty crime due to hopelessness.
• 2017 witnessed a 35% increase in the number of people seeking food relief due to the harsh economic weather of recession and massive job loss.
• Over 4,300,000 people seeking food relief each month are unable to be assisted by charities whose mission is not tailored towards food relief.

The Impact Of Food Relief Is Immediate And Profound

• People receiving food assistance from Lagos Food Bank say they feel relieved, happy, positive, hopeful and less ashamed.
• They report both immediate benefits of feeling less hungry as well as longer term benefits such as improved physical health, being able to plan for the future and feeling able to look for work/get a job.
• Around half say the food bank benefits last about a week, while 22% say the food relief help them through a crisis period of a few weeks and 6% say the food relief help them to make longer term, lasting improvement to their lives.
A goal without a plan is just a wish. At Lagos Food Bank, we focus more on strategy and planning before commencing execution of several large scale projects that takes us into different communities in Lagos, we take out the month of January to map out different locations, slums, households etc in order to achieve our goal to reach thousand of vulnerable people for the year. We understand that hunger does not rest neither does it go on holiday so we use this time to reach out to struggling families who are within proximity.
FEBRUARY
PROJECT AT DUSTBIN ESTATE AJEGUNLE
Hunger, poverty and disease are interlinked with each contributing to the presence and persistence of the other. This informed our visit to the Ajeromi LGA. Dustbin Estate Area of Ajegunle Lagos. Prior to the outreach, our team carried out a survey/inspection of the area and discovered that over 20,000 children and several adults reside in this slum.

Following our findings, we registered over 180 volunteers to assist us reach out to this community by distributing raw foodstuffs to adult and cooked food for children. We also distributed School Bags, notebooks, writing materials, mosquito nets, school sandals, and gently used clothes amongst several other items.

At the end of the outreach we reached out to over 3500 beneficiaries including children and nursing mothers at this community. Ajeromi LGA. Dustbin Estate is a very poor and underserved community in Ajegunle. It was there we met Mrs SEKINAT AYO-DELE a widow who finds it difficult to feed herself and her four children. When we met her, she told us how grateful she was to receive food from our outreach. Mrs Sekinat said with joy: “God bless you for this food, I don’t know what I and my children would have eaten today.”

I HAVE HOPE FOR TOMORROW.
Recent research shows that many children who do not have enough to eat wind up with diminished capacity to understand and learn. Children don’t have to be starving for this to happen. This influenced our decision to carry out our second project at the Destitute Community Idi-Araba Lagos where we reached out to over 3,500 children and the physically challenged. Several nursing mothers and less privileged children trooped to receive food and other relief items we brought in. The Seriki of the Destitute community was available to disseminate the information and co-ordinate the community members for easy distribution.
Most people in Nigeria especially Lagos believe that hunger only affects people who are lazy or people who are just looking for a handout, people who don’t want to work, but, sadly, that is not true. Over one-third of our hungry people are innocent children who are members of households that simply cannot provide enough food or proper nutrition. And to think of the elderly suffering from malnutrition is just too hard for most of us.

The April 29th Project was carried out Odun-Ifa Slum at Oworoshoki. The slum is considered one of the most inhabitable slum in Lagos. We targeted 3000 beneficiaries including nursing mothers and vulnerable chil-
dren. 150 Volunteers participated at the outreach. We donated lots of food stuffs to children and several families, medical assistance such as eye test and medical checkup. The event was successful and several kids went home happy.

WE ARE NOT FORGOTTEN

“I thank the Lagos food bank because it has helped my Family, especially my mother and my father. It has made them very happy because we have food to eat.”
Close to 8 million people in Lagos - still live in hunger. Each year several children die of preventable diseases including malnutrition. To celebrate children’s day, we had the this project at Ilaje Slum (Ebute Meta West) on international Children’s Day May 27th. Over 3000 children were reached out to in terms of food, school bags, sandals, and several fun games to spice the event and make the kids happy.

This outreach also recorded the strategic partnership of Uber Nigeria and the Alumī of Yale University (Nigerian Branch) who also rendered volunteer services to the food bank in large numbers.
One of the greatest feelings in the world is knowing that we as individuals can make a difference. Ending hunger in Nigeria is a goal that is literally within our grasp. This sixth month of the year witnessed a change in practice from the most popular slum areas to a more hidden slum of OGUNDIMU SLUM IWAYA YABA. For the first time in 2017, we constituted a vibrant medical team of over 20 doctors and other medical practitioners, to reach out in terms of medical needs. We also gave of several foodstuffs and instant meals to children over 2500 vulnerable families. More than 200 volunteers participated. During this outreach we gave out several relief materials such as clothes school bags, Slippers school sandals and raw foodstuffs for adult, mosquito nets etc.
“I’m 63 years old. Since my husband died, life has never remained the same ” she said...
“I didn’t have enough food and money.” she said. In the course of the outreach, she was able to get enough food stuffs, clothes and other relief items to sustain her family for some time. “I don’t know what to say, but my God will bless you all”. --- Mrs Okonkwo Esther
Extreme poverty and unemployment is one of the most pressing issues of our beloved country Nigeria. The economic meltdown made it even worse. The focus of our activities for the month of July was to extend our outreach to the most underserved areas one of which is the Canal slum, Ajegunle Lagos. It is a remote slum that most charity hardly visits not only because of the distance but also because of the notoriety of the environment. Despite the challenges faced, we were able to reach out to more than 3000 families with over 200 volunteers present to assist with distribution. In the same manner, we also gave out lots of food items,
shoes, clothes, toys and other relief items to nursing mothers. Our medical team also attended to several patients in the same location. We were assisted with drugs for this outreach by Osworth Nigeria Ltd.
Over the years the population of destitute and un-catered children is becoming alarming on our street so much that the need for an intervention like LFBI became necessary especially as Nigeria has had many ineffective developmental plans to improve the wellbeing of her young/child population.

For the month of August, we focused our outreach activities on the destitute community - a colony of numerous destitute - at Isale Oja, Agege Lagos where we gave out lots of food items and reliefs materials. We set out to touch over 3500 poor families with over 200 volunteers present to assist with managing the crowd. Most importantly, our medical team was on ground to attend to several vulnerable people that could not afford medical. We also received good will contributions from companies like Uber and Renaissance Hotel.
A WONDERFUL EXPERIENCE

My first time at the Food Bank, as a volunteer of the LFBI made me realize that there is so much we can do to help make life better. I am very thankful for the service they provide, and the compassion with which they do it. My heartfelt thanks to everyone who donates money and food to the Food Bank, your generosity is helping so many families who are at a very hard emotional and financial time. - Oluwatosin.
World food day as we all know is celebrated on the 16th October every year. It is a day set aside to honour the date of the founding of the food and agriculture organisation of the United Nations in 1945.

LFBI celebrates this day every year and 2017 was no exception. We invited several vulnerable families into the food bank to receive food and other gift items; we also had some of our volunteers on ground that day to assist with distribution.

It was a little but highly successful event as the beneficiaries were extremely happy and our volunteers were also glad to put smiles on the faces of the less privileged.
Food scarcity is a major cause of hunger whereas hunger is the major cause of anger and even political agitations. In the month of September, we focused our outreach activities the streets and communities in Lagos one of which is Water Front Oworonshoki.
Front Oworonshoki Lone Street, where we reached out to over 5000, women and children concurrently. With the assistance of over 250 volunteers from various works of life, we achieved a milestone we had never achieved before in terms of the number of indigent people we reached out to. At the sight thousands of people on the queue, we noticed that indeed hunger and poverty is inside the home of most Nigerians. As usual, we gave out medical assistance, food stuffs, various relief items and educational materials to school children.
Uber’s global week of service, is a week set aside by Uber to give back to the society and impact lives in respective communities.

To replicate this locally, Uber Nigeria. Partnered with Lagos Food Bank to reach out to over 1000 less privileged children at Agege destitute ground, this event encouraged staff participation of Uber Nigeria in engaging with the indigent community.
The only language a hungry and angry man understands is the language of food. In the month of October, we took the biggest leap since the inception of our outreach activities by crossing the Lagoon to reach the less privilege families, we visited the Agboyi Community, Ketu, Lagos to reach 3500 indigent families ranging from orphans, widows and vulnerable families. This month witnessed a surge of various activities. We exceeded our limit of 200 volunteers with additional 90 volunteers. Nursing mothers got baby food and mosqui-
to nets. At the end of the event, we helped render medical services, gave out exercise books, pens, clothes, slippers, shoes, food stuffs and other relief items to the children and vulnerable adults.
The government, the faith-based organizations and several food industries have enough food but we need to improve on our spirit of sharing. With sharing and equitable distribution of resources — hunger, anger and political agitations will all come to end.

For the month of November, we extended our outreach for the first time to the Ikorodu Area of Lagos known as...
Majidun Community.
A bucolic community near to the lagoon. Poverty and hunger often prompt people to commit suicide in this community due to hopelessness. Our food relief was largely welcomed by the entire community trooping out in numbers to get food aid. At the end, we gave out medical assistance, food stuffs, various relief items and educational materials to school children.
The December 2017 project held at Ijora Badia was the last project for the year 2017. Ijora Badia is known as the largest slum in Lagos State consisting several immigrants from different parts of the country. In the spirit of the season, a lot of volunteers applied to be part of the project, which brought the number of volunteer applications to over 300. We gave out double of what we usually give at the outreach because of the population of the slum. Over 500 children got new school bags, note books and stationeries. The people of Ijora Badia live in a very unhealthy environment and had different illnesses which our medical team was able to maintain.

It was a successful outreach as we were able to put smiles on the faces of both young and old.

MY CONTRIBUTION

“I donate to Lagos Food Bank by a monthly standing order. The monthly amount is not large, but lots of small amounts really do add up to something big. I hope that my support goes a small way to empowering people in need and enabling them to better reach their potential. And I hope that my donations illustrate that other people do care”.

- Abimbola Lawal
FUNDING SOURCE

DONORS MAKE A HUNGER-FREE LAGOS POSSIBLE

From above chart, it’s apparent that we still have a long way to go to bring all the stakeholders on board the food bank vision. We are making efforts to sensitise the corporate community on the essence of food bank as most corporate bodies believe that giving food to the less privileged is not sustainable hence their reluctance towards supporting causes like this but on the contrary, food bank is out to meet short term needs of hunger and give hope for the future. Food bank is not out to eradicate poverty but to ameliorate the effect of poverty.
As Lagos Food Bank plans to increase its beneficiary coverage by 50% in 2018, we will need to secure more resources to support this work. We depend on donations from individuals, companies, faith based organisations and government grants to operate, including the gifts of food, time and talent. During the year, we recorded massive donations of food from our donors worth millions of Naira. We also leveraged more than 192,000 hours of volunteer service – Financial donations made our hunger relief efforts less cumbersome.

Success will require us to form strategic partnerships with donors who are willing and able to make transformative gifts that can really make an impact and move the dial on hunger. With our passion for the mission and our focus on innovation, data-driven decision-making, demonstrable efficiency, and continual process improvement, Lagos Food Bank is well-poised to lead this effort. Donors have the power to make it all possible.

Volunteering is not limited to the young adults only. At Lagos Food Bank we encourage more participation of older men and women. This can be achieved when volunteers inform their parents, bosses, uncles, etc to register to be a volunteer. - Aso Joses (LFBI programs manager)
We take great care to ensure that every donation entrusted to us is used to maximum effectiveness, for the benefit of the less privileged.

OUR PARTNERS
Media support is a huge part of our success in 2017, it is only with the support of our local media that the LFBI is able to communicate our needs and educate the public about what we do. Throughout the year each of the below media outlets give us the media platform and we are grateful to them for their support.
OUR TEAM

No one can whistle a symphony. It takes a whole orchestra to play it. Team work has made our goal of fighting hunger possible in 2017.
