2018 IMPACT REPORT

LAGOS FOOD BANK INITIATIVE
FOOD | LIFE | HOPE

2018 IMPACT OVERVIEW:

- Over 1 Million cumulative impact of beneficiaries
- 11 nutrition intervention community projects
- 32 nutrition intervention Mini Projects
- Over 85 communities served
- Health and nutrition services
- 20 Strategic Partnerships to curb food waste
- Over 4,000 Registered Volunteers
- 250, 000 hours of volunteer service
- Self-sustenance interventions program for beneficiaries
- Poverty relief intervention programs for Nursing mothers

FOUNDER.
LAGOS FOOD BANK INITIATIVE

FROM THE PRESIDENT

Greetings from The Lagos Food Bank!

I am proud to present the 2018 Annual Report highlighting the progress and impact of our organization in eliminating malnutrition and hunger in Lagos and its environs. With the overwhelming support from all stakeholders, FY2018 marked a year of growth, as we witnessed an impressive increase in volunteer intake, donor-support and partnerships with corporate bodies and non-profit organizations.

Since inception, the Lagos Food Bank has reached 85 communities, with over 4,000 volunteers, serving nutritious food to over a million people in need. The need for food relief and nutrition interventions, sadly, has never been greater; the numbers of beneficiaries are overwhelming due to the economic downturn and demographic upsurge. While the feedback we receive from our stakeholders is inspiring, stories of needs are heartbreaking.

The last fiscal year is very significant because it witnessed a slight shift in our impact approach moving beyond meeting the immediate needs of our beneficiaries to establishing programs that find long-term solutions addressing the underlying causes of hunger and malnutrition, death of children under the age of 5 and ultimately helping our beneficiaries become more self-reliant.

In line with the international community's commitment to ending hunger by 2030; in 2019, we will be implementing nutrition interventions projects like NUMEPLAN: Nutritious Meal Plan Intervention for vulnerable Pregnant mothers and infants and other interventions that tackle diet-related diseases like type II diabetes and heart diseases.

To drive sustainability, we will further strengthen our capacity to help more vulnerable families become self-reliant to feed themselves through our on-going job placement program that matches the basic skills of the beneficiaries with menial job opportunities with the use of technology.

It is my delight to mention that Lagos Food Bank is not just an organization; it is a movement. A movement made up of thousands of people who share a dogged determination to fight hunger and feed hope regardless of ethnicity, race or religion. A movement of people willing to go the extra mile to help those in need. A movement that has only been possible because of people like YOU!

On behalf of the thousands of people we have impacted through your generosity- children, the elderly, homeless, destitute and the less privileged, thank you for your loyal and generous support. With your help, we are on the move toward a hunger-free Lagos. let's continue to dream of all the new and innovative ways that we can use to close the gap on hunger once and for all. We can do it together!

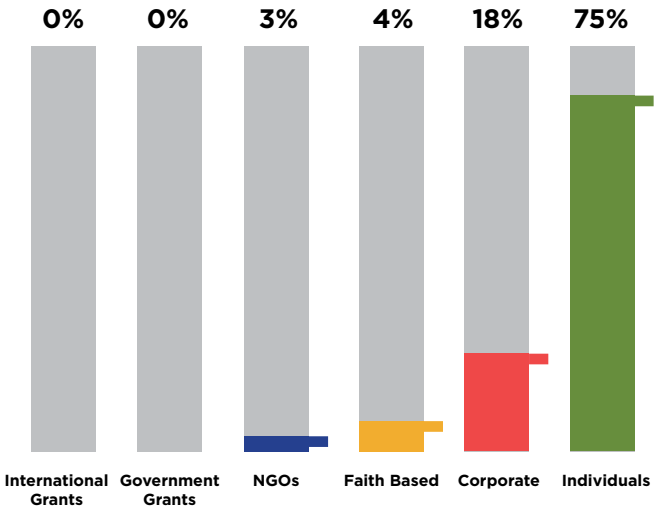
With best regards,

SOURCES OF FOOD

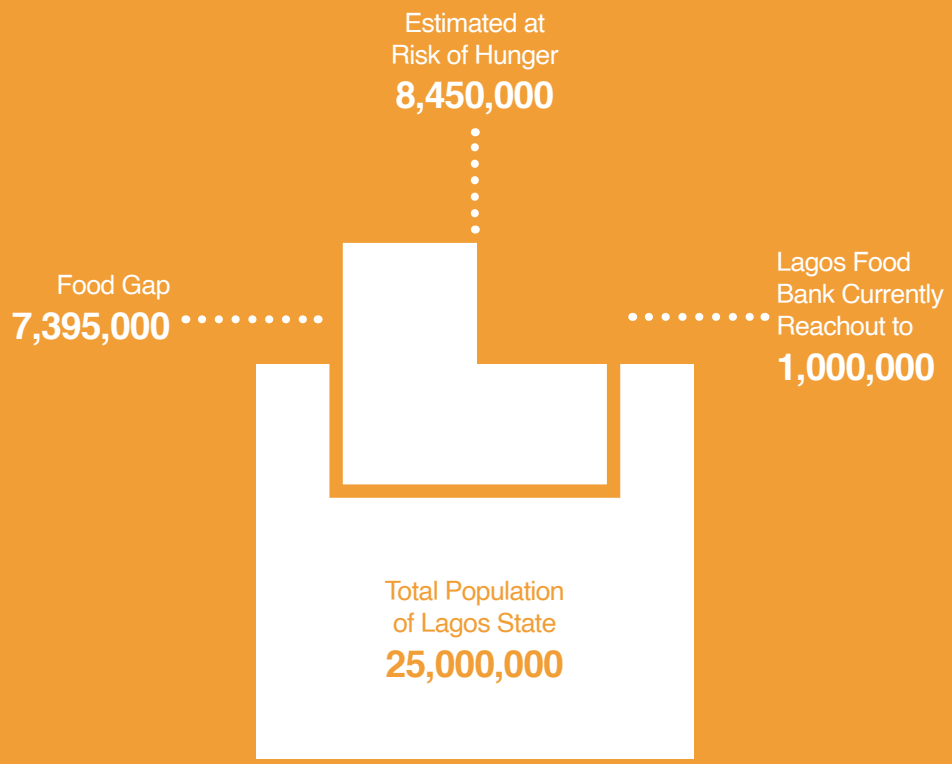
Market purchase constitutes a larger chunk of our food source, our goal is to achieve 100% donation towards our hunger relief effort and attain zero expense on food purchase at the local market.

SOURCES OF FUNDS

Individuals represents a large percentage of our funding. Our goal is to explore other funding avenues like merchandising, international and government grant to aid the sustainability of our solution to serve more people.



Individuals	75%
Corporate	18%
Faith-Based	4%
NGOs	3%
Government Grant	0%
International Grant	0%



We **Know**

- An estimated 8,450,000 people in Lagos are at risk of being hungry and not getting help.

We **Believe**

- Hunger is solvable
- Hunger has no place in Lagos the epicenter of commerce, innovation and prosperity.

We're **Determined**

- To lead the movement to end hunger in Lagos and its environs.
- To feed 50 percent more people in 2018.
- To implement solutions that end malnutri tion in all its forms.

WHY WE ARE HERE

At The Lagos Food Bank Initiative, we strongly believe Food is essential to human existence.

We are a nutrition focused initiative committed to alleviating hunger and poverty by delivering nutritious food, basic health services and self-sustenance programs to the most vulnerable in the society

WHAT WE SEE

We see a Lagos without hunger and closing the obvious food gap by the year 2030.

WHAT DRIVES US

Commitment: We are committed to solving hunger induced problems and providing related services.

Compassion: We are motivated by compassion to reach out the poor

Community: We collaborate with other who share our goals of a poverty free nation.

OUR SCORE CARD

1,000,000 Beneficiaries

Till date, we have reached more than 1,000,000 beneficiaries especially malnourished children in over 86 communities.

Partnerships

We have successfully partnered with over 20 brands to tackle food waste and the scourge of hunger and malnutrition in our communities.

Nutrition

Over 30,000 women, men and children have benefited directly from our Nutrition focused Medicare.

Job Placement

Lagos Food Bank Job Placement Program has helped over 100 breadwinners become more self-reliant

Social Media

Through our social media presence, we have been able to connect thousands of beneficiaries to donors whilst puting hidden hunger in plain sight for positive action

Volunteers

Saw over 4000 volunteers pass through our doors to help malnourished children in the slum communities. This is more than a 100% increase from 2017 1,264 volunteers intake!

THE THING ABOUT LAGOS!

Lagos State, Nigeria's largest urban area is arguably the most economically important state of the country. Despite being one of the most stressful states on the planet, more people migrate from other rural communities in the country to Lagos every day in search of greener pastures because to many, Lagos is the land of opportunity and the center of excellence but unfortunately, they are faced with the reality of not getting things easy as it seems.

WHO IS HUNGRY IN LAGOS?

There are more people affected with Hunger in Lagos State than we can imagine. The numbers are not exactly fixed but the reality is glaring, over 50% of the population of people living in Lagos battling to survive. With a growing population (over 23 Million in 2017) on a daily basis, it means resources will be stretched and more people are likely to go to bed hungry due to the harsh economic reality. More Lagosians are living from hand to mouth and a greater percentage can barely afford a single meal. Hidden hunger is more prevalent in Lagos than other states in Nigeria.

MORE THAN MEALS

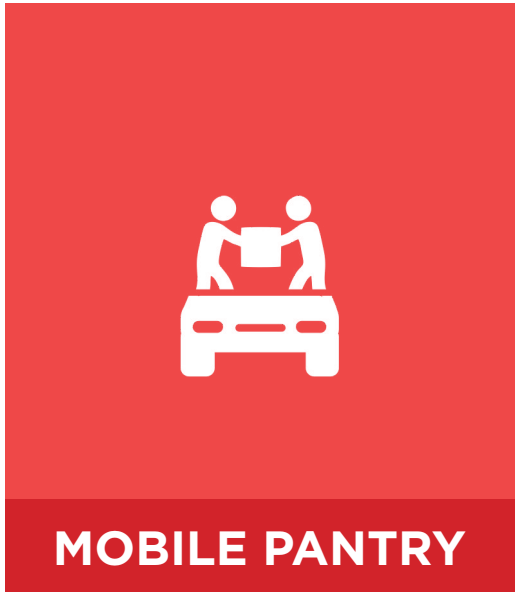
At LFBI, we believe our actions are our future and meeting instant needs can make a difference but we are more than just the meals we provide. We nourish our beneficiaries to face the day ahead by creating conditions that will allow people to thrive, systems that seeks to alleviate hunger and combat aspects of multi-dimensional poverty by collating basic skills of our beneficiaries and matching them with menial job opportunities available help them fend for themselves and break the cycle of poverty and malnutrition with improved income.

We are actively involved in the Zero Hunger Challenge (ZHC) by aiming to end malnutrition in all its forms within Lagos and its environs. We continue to champion adequate health care by offering interventions and initiatives that seeks to improve the nutrition and food intake of pregnant women and their infants. We believe that giving back is important no matter how small because no one should go to bed hungry and everyone deserve the right to good health. We offer grass root responses tailored to local hunger needs.

The Areas we serve

LAGOS FOOD BANK

3 MODELS



SEASONS CHANGE FACES CHANGE;

Nigeria has the highest number of hungry people in West Africa about 12.1million people are hungry or under nourished. After years of decline, global hunger is again on the rise. Nigeria, Africa's most populous and wealthiest nation with a growing economy has more 80% of its population living below the poverty line. Lagos with a population of 24.5million and a land mass of 3,345square kilometers produces less than three percent of its food requirement

BUT THE NEED REMAINS.

Globally an estimated 821 million people struggle with chronic hunger. That's 44 million more than two years ago. (FAO 2018). Despite the adoption of the UN sustainable development goal to try to end hunger by 2030. 1 in 9 people in the world is going hungry. Nothing can be more urgent than to feed a desperate population and food banks is a viable way to go

We make sure no good food goes to waste.

Food waste is a huge loss to people it could feed and it also amounts to waste of labour, water, energy and all other resources involved in the whole system of food production.

Food waste amounts to roughly $990 million worldwide and produces the equivalent of 3.3billion tons of greenhouse gases (FAO)

The first step to ending food insecurity is providing resources to those with immediate needs. The Lagos Food Bank Initiative captures surplus food as well as resources and deliver it to the people who needs. Approximately 15 – 30% of food in developing countries like Nigeria, about one-third of it is wasted. Global estimates on food losses and wastes per year are roughly 30 per cent for cereal crops; 20 per cent for oil seeds, meat and dairy; 40 to 50 per cent for root crops, fruits and vegetables; 35 per cent for fish. (FAO). It is important to note that the food wasted could be redirected to nourish more people in need hence a solution like Lagos Food Bank.

A popular saying by Bono goes thus: “if you want to eliminate hunger, everybody has to be involved”. To eliminate hunger, we must minimize food loss during production, storage and transport, and waste of food by retailers and consumers. Everyone must make the commitment to stop food wastage.

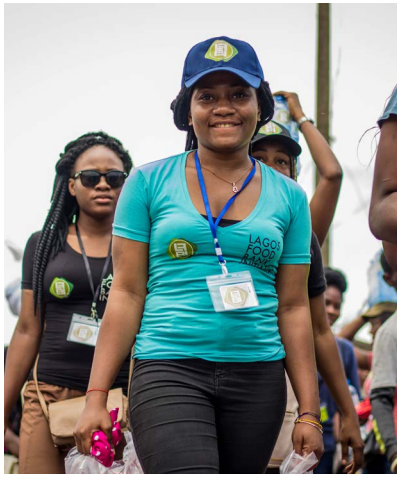
Outreach to Ago Egun Slum located in Ebute Ilaje Bariga, Lagos State.

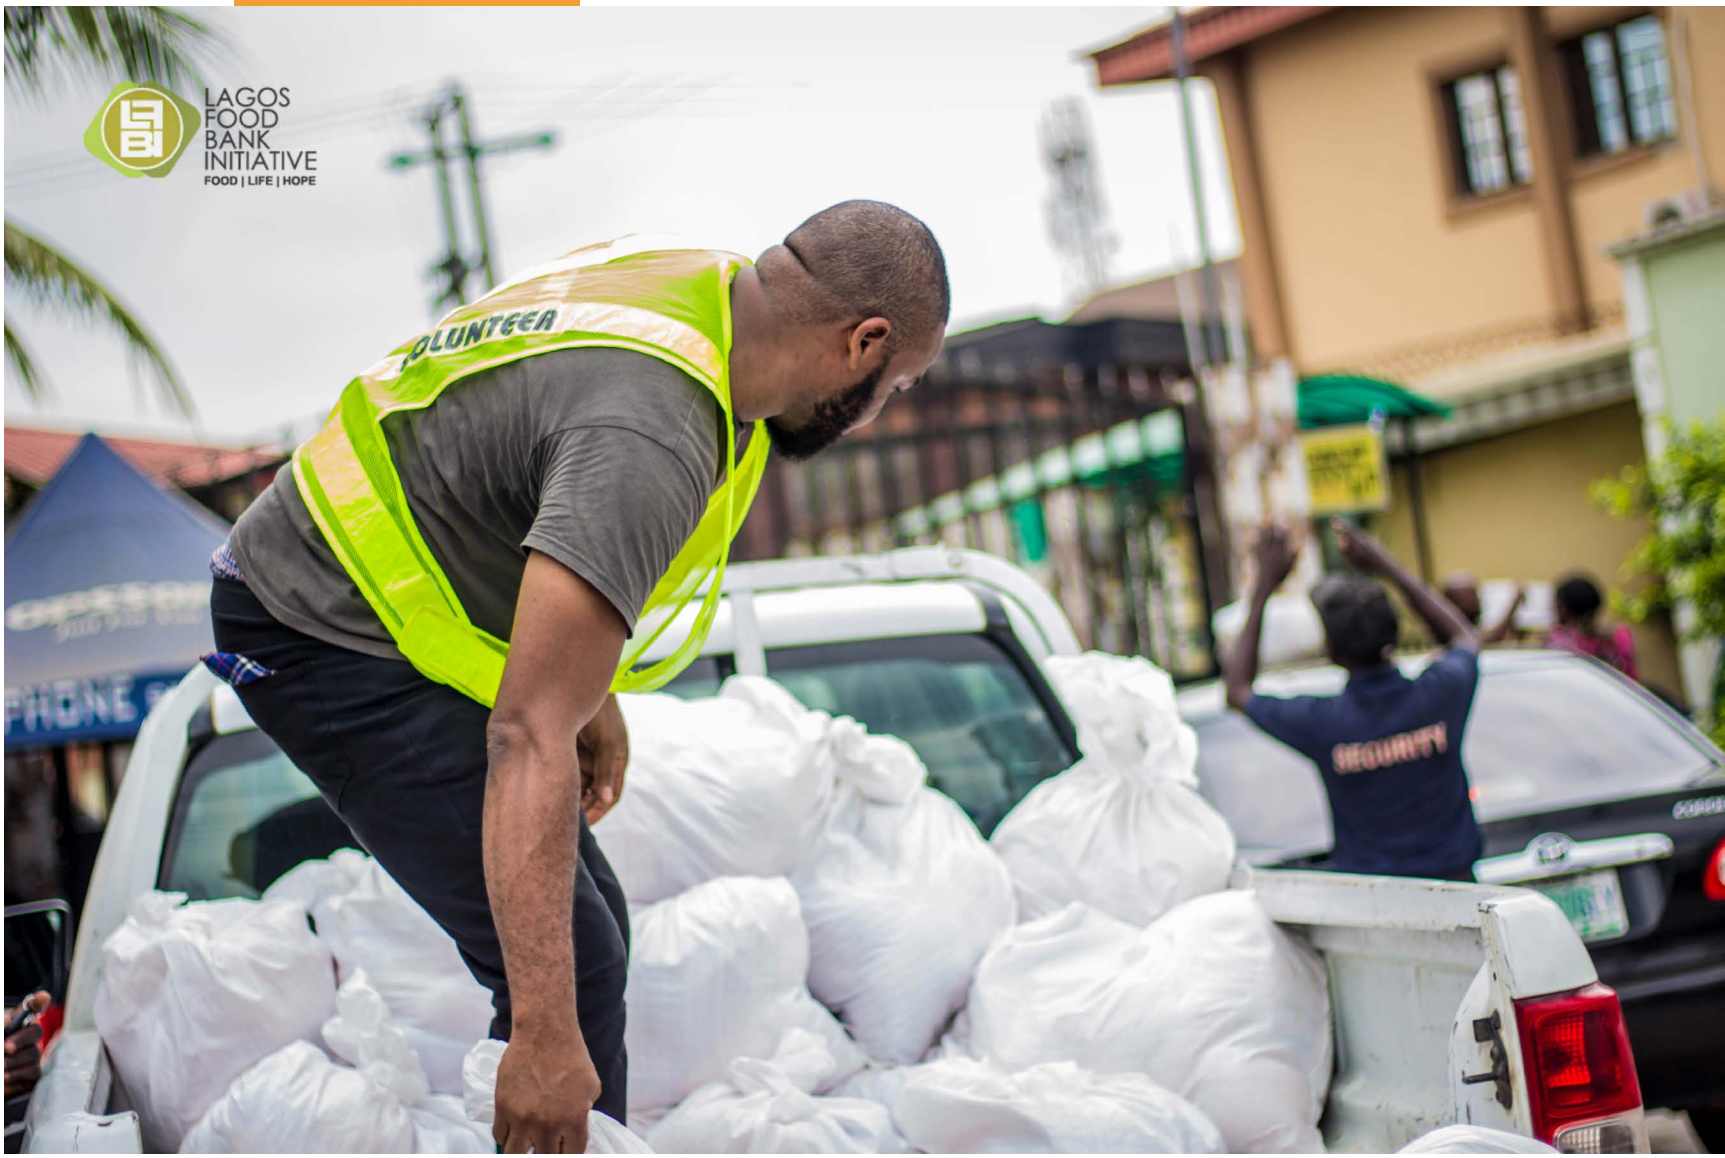
Impact

On February 24th 2018, the Lagos Food Bank Initiative visited the Ago Egun Slum located in Ebute Ilaje Bariga, Lagos State. Following series of inspections of the slum prior to the day set out for the nutrition intervention and sensitization program, it was discovered that there are over 120,000 residents who lack access to basic amenities such as nutritious food and portable water.

In the spirit of love and valentine, the LFBI mapped out most vulnerable families and impacted about 5,000 including orphans, the aged. Also provided these families with sustainable relief by adding their information to our data base for interventions tailored towards long lasting

impact and healthy nutrition.
Also included in our program is the basic medical aid nutrition rendered to about 400 occupants of the slum. Basic checks were done and diagnosis was made based on the examination conducted. In some cases, drugs were administered based on need.
When we work to end childhood hunger, we are giving our love to kids who need it so much they will never ask for it – Beau Bridges





Outreach to the Otto Ilogbo Community in Lagos State

Feed the Human soul.

What inspires a person to give countless hours to community service and be willing to go the extra mile? Each year, thousands of volunteers and donors help Lagos Food Bank in our work to end malnutrition and hunger. Donations of time and money are offered in large and small amounts – and it is the combination of these generous donations that ensure thousands of vulnerable people in Lagos can be reached on a daily basis. For Adedayo giving to Lagos Food Bank has become an integral part of her family's life. These days, you'll find her giving back as a regular volunteer. Stories like this is a good example of how much reaching out to others can make a world of difference.

Volunteers, while giving to The Lagos Food

Bank have found themselves to also be a beneficiary in many ways. In the words of Adedayo “Being a volunteer, enriches my own life. I feel a deep sense of empowerment being able to do something about one of the many problems facing people in Lagos State.” Adedayo has also made friends through her volunteerism at the Lagos Food Bank Initiative and says it is a blessing to be with other volunteers who share in the dream of a hunger free Lagos.

Alleviating hunger is not only possible, but a responsibility for all of us as a community, individuals, society to take on and contribute toward a hunger free Lagos. No one should go to bed hungry in a blessed country like Nigeria.

IMPACT

The Lagos Food Bank reached out to Otto Ilogbo Community in Lagos State on the 31st of March 2018. The Otto Ilogbo community slum is a community of 15,000 residents in the middle of Oyingbo, a cosmopolitan area in Lagos Mainland. The community is characterized by huge refuse dumps which sometimes threaten to swallow up the community. Parents in this community had a hard time deciding between buying food and paying for house rent. Life here is hard as most residents live from hand to mouth.

The LFBI set out to this community with over 200 volunteers to reach 5,000 vulnerable children and aged adults, providing these beneficiaries with relief materials. The distribution of these relief materials was done effectively by the volunteers on ground ensuring that beneficiaries went home happy. The LFBI aims to provide children with the basic necessities to aid their learning at school.

APRIL

How we addressed malnutrition in children per community.

OUTREACH AT THE IDI-ARABA DESTITUTE HOME

Our community interventions reveal that malnutrition in children is often caused by long-term health conditions, for which hospital treatment is often needed. But this isn't the case for all children with malnutrition. We realized that dietary changes, such as eating foods high in energy and nutrients, food bank support for families to manage underlying factors affecting the child's nutritional intake; or treatment for any underlying medical conditions causing their malnutrition.

Providing vitamin and mineral supplements high energy and protein nutritional supplements – if the other treatments aren't enough on their own.

We ensure beneficiaries chronically malnourished are monitored regularly to track impact. Regular weight and height measurements are taken, with referral to specialist services if there's no improvement.

Impact

Idi-Araba an officially-designated slum in Metropolitan Lagos is home to a large multilingual Hausa community. A meeting/ consultation/ coordination with project stakeholders and the Seriki of Idi-Araba Community were done prior to the outreach day.
Every outreach organized by the LFBI is aimed at adding value and touching lives. 5000 under privileged children (orphans inclusive) and the aged adults were mapped out for our nutrition intervention and food security along with the provision of basic human necessities such as mosquito nets, mattresses, sandals, slippers, gently used clothes, school bags, raw food stuffs, writing materials and several other relief materials. Over 35 medical personnel of the LFBI were on ground to conduct basic nutrition examination and malaria test, blood pressure checks, eye tests and lots more. Relevant drugs and medicated glasses were given to the patients after diagnosis and they were counselled on ways to keeping themselves healthy.

The project intervention took place on the 28th of April, 2018 at the Idi-Araba Destitute home.

I HAVE A DESIRE TO GIVE BACK

I started out with making monthly donations towards the outreaches and later decided to take it a notch higher by also physically participating in the monthly outreaches, in addition to the monthly stipend donation. The experience and exposure gained on the field is really eye opening. Seeing the level of poverty in the same city I reside in is troubling and calls for serious actions. It is indeed a privilege to be a blessing in my own little way.

Babs-Enoch Oluwatoyin

Outreach to The Oke Eri Slum in the Oworonshoki area of Lagos

Social Protection

Past social protection interventions in Nigeria has failed to reduce poverty. Social Protection which normally consists of policies and programs designed to reduce poverty and vulnerability has yet to have desired impact in Nigeria. More people are affected by the failing economy resulting in poverty. Poverty, inequality and instability are strongly influenced by limited economic opportunities, spatial inequities and ethnicity, age and gender inequalities. Social protection cannot be felt by the vulnerable in the society if they cannot afford basic needs like food. In the context of high levels of poverty and inequality, the existing social protection approach is currently facing a number of challenges. The key ones include the low coverage of existing programmes, the implementation of only a narrow set of instruments, poor service delivery, and the fragmentation of approaches and projects across the country.

While the Government needs to strategically plan social protection interventions to positively affect citizens, it is important to note that the number of people affected by hunger is not slowing down. Lagos Food Bank Initiative sees a Lagos where all families would have enough food to eat that is safe and nutritious. A world with zero hunger can positively impact our economies, health, education, equality and social development. It's a key piece of building a better future for everyone.

MAY

Impact

At Lagos Food Bank, a vibrant social welfare is in our blue print for scaling our social impact. Our welfare system will not only cater for feeding the poor but the entire basic needs such as such as water, shelter, healthcare, schooling etc. Meeting instant needs still forms an integral part of our model calling for our nutrition intervention project in Oke Eri Slum in the Oworonshoki area of Lagos on the 26th of May 2018. 5000 beneficiaries including children and aged parents were recipients of relief materials including over 3000 packs of food table water, raw foodstuffs, school bags, sandals, slippers, writing materials, gently used clothes, mattress, mosquito nets, cooked food and other materials.

Extreme hunger is everyday reality

The level of Hunger in a country is a reflection of the available economic opportunities.

Extreme hunger and malnutrition remains a barrier to sustainable development and creates a trap from which people cannot easily escape. Hunger and malnutrition mean less productive individuals, who are more prone to disease and thus often unable to earn more and improve their livelihoods. There are nearly 800 million people who suffer from hunger worldwide, the vast majority in developing countries.

New evidence continues to signal that the number of hungry people in the world is growing, reaching 821 million in 2017 or one in every nine people.

Hunger has been on the rise over the past three years, returning to levels from a decade ago. This reversal in progress sends a clear warning that more must be done and urgently if the Sustainable Development Goal of Zero Hunger is to be achieved by 2030.

According to the 2018, Mo Ibrahim Index of African Governance (IIAG), Improved Gross Domestic Product (GDP) does not translate to sustainable economic opportunities in Africa. Sustainable economic opportunity remains on average the worst performing and slowing improving category of the IIAG. Nigeria ranked 29th with a score of 43.5 and a growth rate of 2.7. The African average is 44.8 with a 0.1 growth rate.

Impact on nutrition

When you are engaged in philanthropic and humanitarian activities you somehow can't help but be touched as a human being. Your emotional awareness increases, your care and consideration for others is awakened and you are exposed to new and different people. You will grow as a person. The Iwaya outreach organized by the Lagos Food Bank held on the 30th of June 2018. An inspection of the community was done prior to the day of the outreach.

About 55 medical personnel of the LFBI were on ground to provide nutrition aid to about 210 beneficiaries, 60% women, 39.1% men and 0.9% children and babies in this community. Total number of female adults seen 108 (30% of them between 16yrs-25yrs of age while 70% were between 26-70yrs of age). Total number of men seen was 102 (between 29yrs-60yrs of age).

Prevalent cases among the community members are as follows: Malnutrition, high blood pressure, diarrhea, upper respiratory tract infection, cough, arthritis, blurred vision, skin infection, gastro-intestinal tract infection, hypertension, insomnia and malaise.

JUNE

The special cases that were also encountered were;
- About 56% cases of malnutrition among the children and female adults. Their data was collected for follow up. Special food items were also given to them and they were counseled on what to eat and better ways of improving their eating habits for a healthier life.

Children	**Skin Allergies 2%** **Malnutrition 56%** **Diarrhea 28%** **URTI (< 16yrs) 40%**
Adults Female (16-67yrs)	**Malaria 5%** **Malnutrition 5%** **Post partum symptoms (25yrs – 40 yrs) 5%** **Malaise 5%** **Skin Allergies 5%** **UTI (16yrs – 25 yrs) – 21%**
Adults Male	**Essential Hypertension 5%** **Insomnia (Sleep disturbance)10%** **Arthritis 20%** **Skin Infection 20%** **Malaise 40%**

Lack in plenty - The poverty capital of the world

OTUMARA NUTRTION INTERVENTION OUTREACH

Nigeria has one of the world's highest economic growth rates, averaging 7.4% according to the Nigeria economic report released in July 2014 by the World Bank. Poverty still remains significant at 33.1% in Africa's biggest economy. For a country with massive wealth and a huge population to support commerce, a well-developed economy, and plenty of natural resources such as oil, the level of poverty remains unacceptable.

Over 1.1 million Nigerians have slipped into extreme poverty in just four months, a report by the World Poverty Clock, a Vienna-based World Data Lab, has said. The latest report according to The Cable, has brought the number of Nigerians living in extreme poverty – or below $1.90 per day, to 88 million.

In June 2018, the Brookings Institution named Nigeria as the poverty capital of the world, with 86.9 million extremely poor people. Nigeria overtook India as the world poverty capital, despite being six times smaller in population than the Asian country.

According to the World Poverty Clock, created by Vienna-based World Data Lab, 88,011,759 Nigerians are currently living in extreme poverty. The World Bank, IMF, United Nations, and major development institutions across the world forecast that Nigeria will not attain the 2030 target for ending global poverty. The Bill and Melinda Gates Foundation also suggest that West Africa, primarily, Nigeria will host 40 percent of the world's poorest people by 2030.

The per capita income in Nigeria today is around the same level as it was in 1970, despite the fact that the country earned over $200 billion in the last 25 years from the exploitation of oil resources.

The question of Why is there so much poverty in the Nigeria is a question for another day. The important thing is we must be determined to make a difference in anyway and every way we can.

Our Role at Lagos Food Bank

Deep down inside, we all want to feel that we contributed, added value and had some kind of meaning and purpose in our lives. Giving to others helps to feel that we've made that difference and helped to alleviate the crisis in somebody else's life.

We carried out this gesture at Agege destitute community in July 2018. Our medial/Nutrition unit identified malnourished children and adult in this community after conducting several test. This process helped us tailor our nutrition intervention towards those with urgent needs for our services and food supply.

The volunteers on ground were more compared to what we have always had in the past and this also helped to ensure no beneficiary was left unattended. The road to the Agege community was narrow and daunting but we were able to convey all items brought successfully to the point of distribution.

Annual Hunger Walkathon

A zero hunger Lagos means possibilities becomes infinite.

A world with zero hunger can positively impact our economies, health, education, equality and social development. It's a key piece of building a better future for everyone. Additionally, with hunger limiting human development, we will not be able to achieve the other sustainable development goals such as education, health and wiping out malnutrition. Nearly 13 million Nigerians still suffer from hunger, with wide disparities across geopolitical zones and between urban and rural areas. These unfavorable trends are due in part to limited gains in food security and nutrition relative to rapid population growth. The high prevalence of hunger in rural areas is associated with low agricultural growth, poor road infrastructure, limited access to safe water, sanitation, and hygiene, and inadequate health and education services gender equality.
The facts speak in numbers. Numbers that sheds light on the dire reality of surviving in Sun-Saharan Africa. Sub-Saharan Africa will not reach the poverty goals until the year 2147. That means 129 years from now, and 117 years after the Sustainable Development Goals (SDGs) would have been achieved by most countries of the world. If we are able to achieve self-sufficiency in Nigeria, we would have solved the hunger and malnutrition problems in Africa.

A lasting end to hunger and malnutrition cannot be achieved in isolation. It requires collaboration and commitment.

WALKATHON ADVOCACY REPORT

The Lagos food bank engaged in the 1st ever hunger Walk in Nigeria against all odds. The maiden edition of the Annual Walkathon had a massive turnout as a large amount of new volunteers were registered for this event. Volunteers present were happy and enthusiastic to partake in the walk.

2000 Volunteers defied the early morning rains in Lagos on Saturday the 25th of August 2018.

The Walkathon was done to promote awareness and action for those who suffer from chronic malnutrition and hunger and for the need to ensure food security and nutritious diets for all. The focus of the Walkathon is that food is a basic and fundamental human right. Yet, in a world of billions, 805 million people worldwide live with chronic hunger, 60% women and almost five million children under the age of five die of malnutrition-related causes every day.

Activities before the walk ranged from exercises to face painting, to picture taking and certificate presentation.

Malnutrition in all its form

Idiko Mushin Community

The key forms of malnutrition are stunting, wasting, and micronutrient deficiencies, and those most affected are mothers, infants, and children. While considerable gains had been made against under-nourishment since 1991, these achievements have largely been stalled, particularly with regard to stunting among children. Over 10 million children representing 33% of all Nigerian children under five years suffer from stunting, 25% are underweight, and 15% of infants are born with low birthweight.

SEPTEMBER

Impact

Idiko in Munshin community was our choice venue on the 29th of September 2018. The Lagos food bank made a unique difference in the lives of several people in this community through our nutrition education and intervention project targeted at children and women on eating healthy and 5 A day campaign. Evidence shows there are significant health benefits to getting at least 5 portions of a variety of fruit and vegetables every day. That's 5 portions of fruit and veg in total. The 5 A Day campaign is based on advice from the World Health Organization (WHO), which recommends eating a minimum of 400g of fruit and vegetables a day to lower the risk of serious health problems, such as heart disease, stroke and some types

of cancer. We distributed fruits to children and educated their parents on how to improve the health of their infants through our 5 A Day campaign.

Our believe at the Lagos Food Bank is that everybody can be a vehicle of change no matter your status. We know that everybody runs into patches in life and welfare assistance may be needed; in truth, most Nigerians today live from hand to mouth and some without food to eat, a home to live in, or in danger of losing their means of livelihood because of the current economy and that is why we do what we do at the Lagos Food Bank.

Reaching one child at a time with Bristow

New evidence signal that the number of hungry people in the world is growing, reaching 821 million in 2017 or one in every nine people, according to The State of Food Security and Nutrition in the World 2018 released recently. Moved by this statistics, on the 22nd of September 2018, the Uplift unit of Bristow Helicopters and Lagos Food Bank partnered to reach one child at a time with highly nutritious pack that last for 5 days with over 100 volunteers in attendance at Oworonshoki area of Lagos state.

OCTOBER

OUTREACH AT DUSTBIN ESTATE, AJEGUNLE

Food for today means security

Despite the need for sustainable solution; The first step to ending food insecurity is providing resources to those with immediate needs. Poverty and food insecurity are both intertwined. Food is a basic human need and food offers a sense of security. Hunger is not just a hyper-local issue. It has become a problem of global proportions but you can make a difference right where you are with one meal at a time. The 2030 Zero Hunger goal cannot be achieved if food insecurity is not dealt with. Malnutrition is deeply rooted in food insecurity. One of the elements of the Zero Hunger Challenge (ZHC) is putting an end to malnutrition in all its forms.

Households are food secure when they have year-round access to the amount and variety of safe foods their members need to lead active and healthy lives. At the household level, food security refers to the ability of the household to secure, either from its own production or through purchases, adequate food for meeting the dietary needs of all members of the household.

The nutritional status of each member of the household depends on several conditions being met: the food available to the household must be shared according to individual needs; the food must be of sufficient variety, quality and safety; and each family member must have good health status in order to benefit from the food consumed.

FAO recognizes that healthy, well-nourished people are both the outcome of successful social and economic development and constitute an essential input into the development process.

Malnutrition is both a driver and an outcome of poverty. With many Lagosians finding it difficult to afford a single meal, the quality of food is out of the question. For someone who is not sure where the next meal is coming from, malnutrition or undernutrition is the least of their worries, all they want is a filled stomach. No one reasons well on an empty stomach. The LFBI is making a difference one community at a time. We offer nutrition sensitive health care, food and initiatives that empowers beneficiaries.

LAGOS FOOD BANK INITIATIVE
FOOD | LIFE | HOPE

World Food Day

October 16TH 2018

World food day 2018 focused on SDG 2 – Zero Hunger with the theme : "Our Actions are our Future". To achieve a world without hunger and malnutrition in all its forms by 2030, it is imperative to accelerate and scale up actions to strengthen the resilience and adaptive capacity of food systems and people's livelihoods in response to climate variability and extremes. This day brings together people from all walks of life to focus on SDG 2, which aims to end hunger, achieve food security and improve nutrition.

The Lagos food bank celebrated the world food day at a mini agricultural festival in partnership with the Lagos State Government. The festival witnessed the assemblage of farmers, across the 57 council areas, displaying agricultural produce, ranging from crops, livestock and aquaculture. On the same day, the Lagos Food bank proceeded to the Destitute Ground in Agege to distribute nutritious meals to malnourished children whilst teaching their mothers the importance of eating food highly rich in nutrition.

AGBOYI KETU

Crossing Boundaries To Render A Helping Hand

IN PARTNERSHIP WITH iTEL MOBILE

We had our 32nd outreach for the year at Agboyi Ketu community. The outreach was held at the Agboyi primary school field. It is riverine community located in the Ketu county of Lagos state and close to mile 12. This outreach required a three minutes' boat crossing, and arrangements were made for life Jackets. The goal of the outreach was to reach more communities with food, relief materials and medical aid as one of the major programs by The Lagos Food Bank.

The Lagos Food Bank Initiative believes no one should go to bed hungry. We continue to embrace opportunities that we can use to empower others and shed light on the issue of hunger in Lagos.

We were able to reach over 4000 underprivileged children and young adults who were our target audience for this outreach. Cooked food, raw food, packs of table water, school bags, sandals, notebooks, gently used clothes, mattress, mosquito nets, baby blankets and other items were distributed by volunteers on ground. We also continued our fruits distribution which was introduced as part of outreach meals earlier in the year. We always want to ensure our meals are balanced and nutritious.

Our nutrition/medical team took the data of malnourished children and adults in this community giving preferences to children with chronic malnutrition. Test was conducted and relevant drugs were administered, and severe cases were referred to the nearest hospital.

600 volunteers were available for the outreach. Through commitment, everyone contributed in ensuring that the goal of the outreach was achieved. This outreach was different from our other outreaches because of the location of the community in a riverine area. The logistics and planning worked out excellently well.

Kids give back

Lagos food bank creates an avenue for kidsfrom 8years and above to engage in community service by serving hungry kids in the slum areas. The maiden edition of the Kids Give Back project kicked off on the 17th of December 2018 and recorded a landmark success. The kids had the opportunity to appreciate life and opportunities better whilst making commitment to give back whenever the opportunity presents itself again.

Merry Christmas

CABIN

Sharing Joy!

DECEMBER

Giving back in December was very special for us. It was a very busy month, it was our time to cap the year in giving. We had three outreaches this month and partnerships with itel mobile, BellaNaija, Sympli, the Bristow Helicopters and many others.

On December 17th, we had a mini outreach partnership with BellaNaija for the BellaNaija Do Good Train (#BNDoGood) which was held at the Ago-Egun Slum, Ebute-Metta. The goal of the partnership was to surprise at least 35 families with Christmas hampers containing nutritious food items to celebrate the festive season.

We had our main outreach (which was our 33rd outreach for LFBI) for the month was tagged “Love at Christmas” on the 22nd of December. We wanted to reach 6000 orphans and vulnerable children at Ilaje slum, Ebute-Metta. We incorporated new items and designed a totally different outreach blueprint because we wanted the outreach to be different from the previous.

On Christmas Day, we continued spreading joy with our mobile pantry train at Ajegunle Agege. Food items were distributed on the go and we had photo sessions with beneficiaries.

MEDIA COVERAGE

Media support is a huge part of our success in 2018, it is only with the support of our local media that the LFBI Is able to communicate our needs and educate the Public about what we do.
Throughout the year each of the below media outlets give us the media platform and we are gateful to them for their support.

KRAKS TV

CLASSIQUEPIXEL

COOL fm

Exclusive Participation

The year 2018 witnessed a paradigm shift in the participation of celebrities' /brand influencers compared to the previous years. Lagos Food Bank was privileged to have the likes of Leo Da'silva; an ex Bigbrother housemate and Lola OJ, a social media brand influencer render their services to the less privileged through the initiative.

It is important to note that their participation was not a one-off but continuous contribution as they could not stop serving after their first involvement.

To this end, we implore other celebrities and entertainers to shine a spot light on one of the most important issues bothering the society which is the fight against hunger and malnutrition and partner with Lagos Food Bank to achieve the success of SDG 2.

Kudos to our Hunger Hero/Heroine!
